Application/Control Number: 10/698,596

Art Unit: 2825

## **DETAILED ACTION**

1. This office action is in response to application 10/698,596 and amendment filed on 11/21/2005. Claims 1-17 remain pending in the application.

## **Drawings**

2. The formal drawings were received on 11/21/05. These drawings have been approved by Examiner and recorded.

## **EXAMINER'S STATEMENT AS TO THE REASONS FOR ALLOWANCE**

- 3. Claims 1-17 are allowed over the prior art of record.
- 4. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or fairly suggest a method for processing objects to be created through photolithography. Each object to be created is defined as a polygon that is fragmented into a number of edge segments that extend around the perimeter of the polygon. At least some of the edge segments have an associated control site where the edge placement error of the edge segment is to be minimal. A smoothing filter is applied to the polygon to identify those control sites that cause an OPC tool to produce erroneous results. The error is calculated for those control sites in the one or more fragmented polygons; and using the calculated errors to adjust the position and/or orientation of the control sites or to eliminate control sites from a polygon prior to applying the OPC tool to the polygons. Note that the limitation as recited in claim 11, "it is difficult to obtain a minimum edge placement error" means "it is impossible to obtain a

Art Unit: 2825

minimum edge placement error" or "a minimum edge placement error cannot be achieved".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vuthe Siek whose telephone number is (571) 272-1906. The examiner can normally be reached on Increase Flextime.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jack Chiang can be reached on (571) 272-7483. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
